THE
Carolina

October 10th, 1754. [NUMB. 1060.]

LONDON, June 10.

THE greateſt man in the kingdom, publicly declared, on tueſday, that, *rather than loſe a foot of ground in America, he would oppoſe the enemies of his country, in that part of the world himſelf.*

June 19. The report ſtill continues, that a ſquadron of obſervation, with a vice and rear-admiral, will ſpeedily be fitted out.

June 29. Yeſterday came advice, that the Toulon ſquadron was met between cape St. Vincent and the Weſtern Iſlands, ſtanding for North America.

Freſh inſtructions will be ſent to the ſeveral governors in America, how to act againſt the incroachments the French are making in thoſe parts.

Whitehall, July 2. His majeſty in council hath been pleaſed to approve of Robert Hunter Morris, Eſq; to be deputy or lieutenant-governor of the province of Pennſylvania, upon the appointment of Thomas and Richard Penn, Eſqrs. proprietaries of that province.

The king has been pleaſed to appoint Jonathan Belcher, Eſq; to be chief juſtice of the province of Nova Scotia.

Joſeph Herbert, Eſq; to be chief juſtice of the Iſland of Nevis.

Harry Webb, Eſq; to be attorney-general of the Leward Caribbee-Iſlands.

Henry McCulloch, Eſq; to be ſecretary and clerk of the crown in the province of North Carolina.

And Dougal Campbell, Eſq; to be clerk of the common pleas in the province of South-Carolina.

London, July 13. While our Northern colonies are threatened with an invaſion from the *French*, and no ſatisfaction can be obtained with regard to the Neutral iſlands, it is no ſmall comfort to hear, that Great-Britain has contracted for 70,000 Ruſſians, to maintain the balance of power in Europe: For now, in caſe of another general war, there will be no need of tranſporting any of our troops to Flanders, as the Auſtrians, Hanoverians and Dutch, in conjunction with the 70,000 Ruſſians, any of the hired troops of ſome petty German princes, will be ſufficient to defend the Empire and the Netherlands; conſequently, we may ſend over ſome thouſands of our regular forces to protect our colonies.

We hear that 9 men of war are getting ready for the ſea at Deptford and Woolwich.

July 15. The Dutch veſſels employ'd in the Greenland fiſhery this ſeaſon, which amounted to 92, have taken 570 whales.

July 20. The lords of the admiralty have put into commiſſion the Gibraltar, a new 20 gun ſhip, and given the command of her to Capt. Richard Spry.

Extract of a letter from a gentleman in India, dated at Calcutta, Jan. 10, 1754. "Since my laſt I can give you a piece of news which is authentic: We have had another ſmart engagement in theſe parts, and have put the French ſo entirely to the rout, that I ſhould think that they will not be able to face us again; our forces were inferior much to theirs, 9000 Europeans and Indians; and theirs 21,000: The want of proviſions, and extreme hard ſervice in our army, induced them to attack the French in their trenches, and have obtained a compleat victory, taking all their artillery, conſiſting of 11 pieces of cannon, ſeveral mortars, &c. all their baggage, 4 or 500 Europeans priſoners, with the officers of the day, the general being gone to make a viſit to a neighbouring nabob. In the bazar or market, was great plenty of all manner of refreſhments, which was of the greateſt conſequence. The number of killed and wounded on our ſide was inconſiderable; as to theirs I cannot give any account, the letter I received from one of the officers being wrote in ſo great a hurry, that he does not mention any particulars, but the French themſelves were ſo ſure of victory, that they had poſted a party of horſe to oppoſe our retreat; and a report was ſpread that they were ordered to give no quarters."

July 24. It is confidently reported that orders were laſt week ſent to the colonies, to raiſe forces at their diſcretion, to act againſt the French.

July 27. Laſt ſunday his excellency the marquis de Mirepoix, the French ambaſſador, ſet out for Dover, in order to embark for France.

There is like to be new diſturbances at Dantzick, where the commons peremptorily inſiſt that no taxes ſhall be impoſed without their conſent.

The Anne & Elizabeth Crawford, is arrived at Spithead, from Rotterdam, with 300 German paſſengers for New-York.

July 30. We hear that ſeveral men of war from the Weſt-Indies, are to be join'd in the Windward paſſage, by others which a few weeks ſince ſail'd from England, in order to form a ſquadron of obſervation.

Yeſterday the earl of Cheſterfield landed at Dover, from on board the Diſpatch packet from Calais.

London, Auguſt 1. We are well informed, that Mr Wall will ſucceed the prime miniſter of Spain, which we flatter ourſelves will be of great ſervice to the trade of this kingdom, the intereſt of which he always had much at heart while he reſided here.

We hear the governors of the Foundling Hoſpital have received a handſome ſum of money for the uſe of the ſaid hoſpital, which was raiſed among the Free Maſons reſiding at Calcutta in India.

Sir Peter Halkett's regiment of foot, on the Iriſh eſtabliſhment, it is ſaid, will ſoon embark for Gibraltar or Port Mahon.

We hear that the fine firſt rate man of war building at Woolwich, and to carry 120 braſs guns, will be named the Royal George, in honour to his royal highneſs the prince of Wales.

London, Aug. 3. His majeſty's ſhip the Garland is ſailed from Plymouth for Virginia.

The Phœnix, Spurrier, from Rotterdam, for Philadelphia, with 860 Palatine paſſengers, is arrived at Portſmouth.

It appears by advices from Madrid, that for ſome time paſt the government has been ſucceſſively ſending armed veſſels to the Weſt Indies, where they are to be employed as guarda coſta's.

Paris, A-la main, Aug. 2. Letters de cachet are every day diſpatching to the ſeveral places where the parliament has been baniſhed, in order to recall the members, who are all to re-aſſemble here on the 20th, or, at fartheſt, on the 25th of this month.

London, Aug. 6. It is inſinuated in advices from Paris, that the miniſtry intend to purſue their ſchemes in North-America, and at the ſame time receive very civilly whatever repreſentations may be made on this head by the Britiſh court. That if they ſucceed, they will make it appear France has a right to build forts on the river Ohio, and along the back of all our Northern colonies: And if they miſcarry, they need but own they were under a miſtake with regard to the boundaries between the two crowns in that part of the world; and ſo all things will be made eaſy, as this is not a very proper juncture for carrying matters to extremities.

Letters from Elſineur, dated the 27th of July, give an account, that 3 days before, his Danish majeſty diſſolved the Daniſh Weſt India company, by taking the colony into his own hands, allowing a free trade to every body; the conditions and time of taking place are not yet known.

La Force, and the other French priſoners, were ſent off, and had got beyond Wincheſter, on their way to the Ohio; but by an expreſs from governor Dinwiddie, they were ſtopp'd, and ordered back to Wincheſter, where they are to remain 'till further orders. — This morning Mr. Giſt was here, who left Wills's creek on Saturday, and ſays, that the New York independents were within 6 miles of that place; and that an Indian came in the day before from the French fort, and informed, that when he came away, there were only 200 men in it, the reſt being draughted and ſent off, in order to erect a fort higher up, at or near the falls of Niagara, having no apprehenſions of the Engliſh 'till the ſpring." ——
